GTM Intelligence · Bright Data + Claude

# The Problem

## Wellness operators

fly blind — no idea what competitors charge  
or which corporate buyers are hiring

## Corporate HR teams

spend weeks researching wellness vendors  
with zero market benchmarks

## Missed revenue

millions in B2B wellness contracts lost  
because operators can't find the right buyers

# The Solution

WellSignal scrapes the live web, classifies signals with Claude AI, and delivers actionable GTM intelligence in seconds.

## ● Wellness Operator Mode

- ◆ Real-time competitor pricing
- ◆ Event demand signals
- ◆ Corporate buyer radar
- ◆ Bundle recommendations
- ◆ Auto-drafted B2B emails

## ■ Corporate HR Mode

- ◆ Curated vendor bundles
- ◆ Employee wellness programs
- ◆ ROI projections
- ◆ Benchmarked pricing
- ◆ Outreach-ready content

# How It Works

65+ live signals scraped · Claude classifies each signal · Full pipeline in < 30 seconds

# Bright Data Integration

**ClassPass****34 listings**

Competitor pricing &amp; wellness bundles

**Eventbrite****20 events**

Demand signals by category &amp; location

**Luma****5+ events**

Community wellness events via Discover API

**SERP****6+ results**

Google demand trends &amp; community signals

**LinkedIn****Live feed**

Corporate buyer radar — hiring signals

## Sample Market Gap (SF Yoga):

- ◆ No hybrid (in-person + digital) yoga offerings in SF — major gap vs competitors
- ◆ Corporate lunch-break wellness sessions underserved — strong B2B demand signal
- ◆ Premium pricing tier (\$45-65/class) has no clear market leader in Mission District
